2018

HYDROTURF® is a U.S. registered trademark which designates a product from Watershed Geosynthetics, LLC. This product is the subject of issued U.S. and foreign patents and/or pending U.S. and foreign patent applications.

PROJECT DESCRIPTION

The Project owner was experiencing erosion rills down the slope and issues with establishing vegetation. To mitigate this and meet their erosion control permit needs, they installed HydroTurf® which was able to handle the onsite runoff on the steep 2:1 slopes. HydroTurf was able to provide the necessary slope protection to keep the HWY 34 Development Pond in compliance.

HydroTurf provided the necessary slope protection to curb any erosion issues.
