HYDROTURF® is a U.S. registered trademark which designates a product from Watershed Geosynthetics, LLC. This product is the subject of issued U.S. and foreign patents and/or pending U.S. and foreign patent applications.

## HIGHLIGHTS

- HydroTurf® was chosen for this site due to performance under high-velocity water flows (25-30 ft/sec), its aesthetic nature as well as the low maintenance needed post installation and cost savings.
- After a very successful installation in Elko, Watershed Geo is currently working on a second project with Jerritt Canyon.

The tan color of the HydroTurf installed on this downchute blends well with the surrounding arid Nevada landscape.
