

ClosureTurf®, HydroTurf®, VersaCap®, HydroBinder®, TerraArmor® and PowerCap™ are U.S. registered trademarks which designate products from Watershed Geosynthetics LLC and/or its affiliated companies (collectively, "WG") that are the subject of issued and/or pending U.S. and foreign patents and patent applications. All information provided herein by WG concerning these products are based upon data derived from independent third-party testing. This information, however, should not be used or relied upon for any specific use without first consulting with an independent professional licensed in the geographic area in which a project is located. Since the actual site conditions, and the installation and use of these products are beyond our control, no guaranty or warranty of any kind, expressed or implied, is made by WG with respect to these products.

### Notes:

1. Vent material is polyethylene (PE) and stainless steel.
2. Passive Gas Vents convey a maximum design flow of 50 SCFM at 1 inch of water column.
3. One Passive Gas Vent per acre is supplied with the ClosureTurf® system. Engineer of Record will determine the required number of vents.
4. Check for updates at [www.watershedgeo.com](http://www.watershedgeo.com).
